"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Pure, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery, which enriches and purifies the blood thereby curing pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 603 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

STEEL SLEEPING CARS.

Atlanta, Ga., April 18 (Spec.)—Seventy all steel sleeping cars of the most modern type, electric lighted and equipped with every device for the comfort and safety of passengers which the ingenuity of the world's leading car builders has brought out, are now being constructed by the Pullman company for the Southern Railway Company on its through trains from the South to New York city. It is expected that these cars will be ready in September or October of this year and as soon as they are delivered to the Southern, the company will operate its through trains to New York, which now stop at Jersey City, into the magnificent new terminal of the Pennsylvania Railroad Company on Manhattan Island, located between 7th and 8th avenues and 31st and 33rd streets.

To reach this terminal trains will pass from the Jersey shore under the Hudson river through Pennsylvania tunnels which are in reality steel tubes, driven beneath the river. By their use the Southern instead of landing passengers in Jersey City will enable them to step from their sleepers in the heart of the hotel, theater, and shopping district, thus eliminating the ferry trip from Jersey City which has been a feature of all travel to New York from the south since the beginning of railroad service. The construction of these terminals with the purchase of the necessary land and the boring of the tunnels cost the Pennsylvania millions of dollars. Never in the world's history has such valuable realty been purchased for railroad terminals. The new station will be the most magnificent in the world and will combine architectural beauty of the highest type with every facility for the safety and comfort of passengers and the expeditious handling of traffic. The Pennsylvania hopes to have this station open soon after July 1 but no trains will be operated into it except those made up of solid equipment and lighted by electricity. All trains will be drawn through the tunnels by electric locomotives. On account of this provision the Southern will not be able to operate its trains into this station until the new sleepers are delivered to it by the Pullman company. Every effort is being made to rush the work on these cars which will represent the highest degree of comfort and beauty combined which has ever been known in sleeping car construction. The steel cars are not only fire proof but carry an element of strength impossible to obtain in wooden construction. This expensive character of equipment has been adopted in the interest of the safety and protection of the traveling public and the cars will represent the result of years of experience and the expenditure of large amounts of money in experiments as to the best and most satisfactory equipment. The opening of the new terminal in New York city will mean not only much greater convenience for passengers bound from the south to the metropolis in being landed in the heart of the city proper but will add greatly to the comfort and safety of the trip from the south.

CHAMBERLAIN'S STOMACH AND LIVER TABLETS

Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by W. F. Orelgton & Co. and Richard Gibson.

COURT "SIS ON" BIG HAT

Henry Curtis Bennett, a Bow street, London, magistrate, tackled the matinee hat question yesterday and decreed that the management of a theatre has the right to eject women patrons who refuse to remove their "cart-wheel" headgear. The action had been instituted by Mrs. Blanche Eardley, a writer, who charged Frank Curzon, manager of the Prince of Wales Theatre, with a technical assault. Mrs. Eardley attended a matinee wearing an enormous hat. A man who had the misfortune to be seated just behind her found his view of the stage obscured, and insisted upon the removal of what he styled "the ridiculous thing" worn by Mrs. Eardley. The latter, irritated by the man's manner, refused. The manager invited Mrs. Eardley into the corridor for a discussion of the matter, and when she remained firm in her refusal to comply with the practice of the theatre he would not permit her to return to her seat. In dismissing the case the magistrate declared that the manager had acted admirably and in the interest of theatre-goers.

GIANT LOCOMOTIVE.

The Baldwin Locomotive Works at Eddystone is building the largest locomotive ever constructed. The locomotive, for which the frame has just been built, will be 64 feet long, without the tender, and 110 feet long with the tender. The engine will carry 50,000 gallons of water. It is being built for the Pennsylvania Railroad Company.

ANTI-CLERICAL POLICY.

The present Italian cabinet formed by Signor Luzzatti, with the support of the radical party, will probably initiate an anti-clerical policy. The under secretary of posts and telegraphs, in a recent speech, said the radicals were determined to reinvigorate the rights of the state from those of the church and the papacy, and to undertake an antagonistic policy toward the Vatican. Evidently the gov-

ernment programs will include several anticlerical measures, such as a law giving precedence to civil over religious marriages, and the total abolition of religious instruction in the public schools. An attempt will probably be made to suppress religious congregations. These measures, however, in all likelihood will not be voted by Parliament owing to the fact that Signor Giolitti is expected to return power toward the end of the year and it is almost certain that Luzzatti's cabinet will fall soon after the summer holidays.

Many Requests from Catarrh sufferers who use atomizers have caused us to put up Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, the only remedy for Catarrh which can always be depended on. In power to allay inflammation, to cleanse the clogged air passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including spraying tube. Mailed by Ely Bros., 56 Warren street, New York.

IN LOVE WITH BLACKS.

A curious scene occurred in Berlin when a troupe of black Senegalese, who had been playing for months at a music hall in Unter den Linden, left the city the other day. The blacks had apparently conquered wholesale the hearts of feminine Berlin.

At midday, as they prepared to drive to the railway station, a crowd of 1,500 persons, mostly women and young girls, gathered opposite the music hall. Eight policemen tried to keep order, but the women and girls broke through the cordon and demanded angrily a last farewell from the blacks. Many of the women were pretty, and well dressed and when the scene was over they departed in taxicabs.

The Senegalese, with complacent smiles on their broad faces, tenderly embraced and kissed their adoring, and to loud cries of "Come back soon!" drove away in droves. The Berlin newspapers comment bitterly on what they call "a typical picture of Berlin manners and morals." They recall the fact that some months ago the government had to issue an appeal warning young girls of good society against carrying on amatory correspondence with half-educated negroes in the German colonies. The negroes' but, evaded the warning, were hung round with photographs sent to them by foolish young girls, many of whom were still at school.

FATALITIES IN FAMILY FEUD.

Two dead, one dying and probably one or two others slightly wounded, are the fruits of a Sunday afternoon battle in a family feud of long standing late yesterday in Emmanuel county, Ga.

The dead are A. S. Collins, a well-to-do farmer, and his son, Wilson Collins. Marion Lewis is so badly wounded that he is expected to die at any moment.

The battle was between the families of Collins and Lewis, and was the outcome of a dispute over a public road crossing. The two families reside less than a mile apart, and the county line runs between their homes. They met in a lane yesterday afternoon near the Lewis home. The members of the Collins family were armed with pistols, and two shotguns were used on the other side. Joseph Lewis, father of Marion, is alleged to have fired the shot that ended the life of the elder Collins.

ORACKSMAN KILLED.

James, alias "Reddy," Gallagher, who participated in the robbery of the Manassas National Bank on November 12, 1904, met his death in an attempted robbery in Philadelphia last Thursday. The other parties who participated in the robbery of the Manassas Bank were Frank Burns, Edward Fitzpatrick, Robert Casey, William Smith and James King. Burns, Fitzpatrick and Casey were tried and convicted in the Circuit Court of Prince William county and sentenced to terms in the penitentiary. Smith was tried and acquitted. Gallagher, together with Burns, Fitzpatrick and Casey were apprehended in Richmond, and Gallagher was released upon the certificate of a physician that he was dying of consumption. Gallagher was considered one of the chief conspirators in the Manassas bank robbery, and from the evidence available a strong case could have been made against him.
